We Are Preparing Your Cisco DevNet Sandbox Lab

no-reply@devnetsandbox.cisco.com

para mi

Hi buennon668@gmail.com

We wanted to let you know that we are currently setting up your IOS XE On Cat8K MDT ZTP Lab. We know you are anxious to get in there and start doing great things, but we need a little more time to stitch it all together and run a few tests.

As soon as everything checks out, we will send you another email with your Lab's VPN connection credentials and instructions on how to connect. Our current estimate for all this is about 10 more minutes.

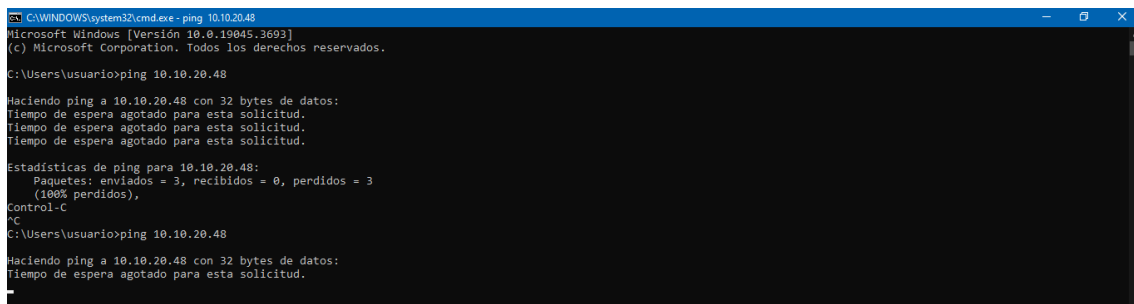

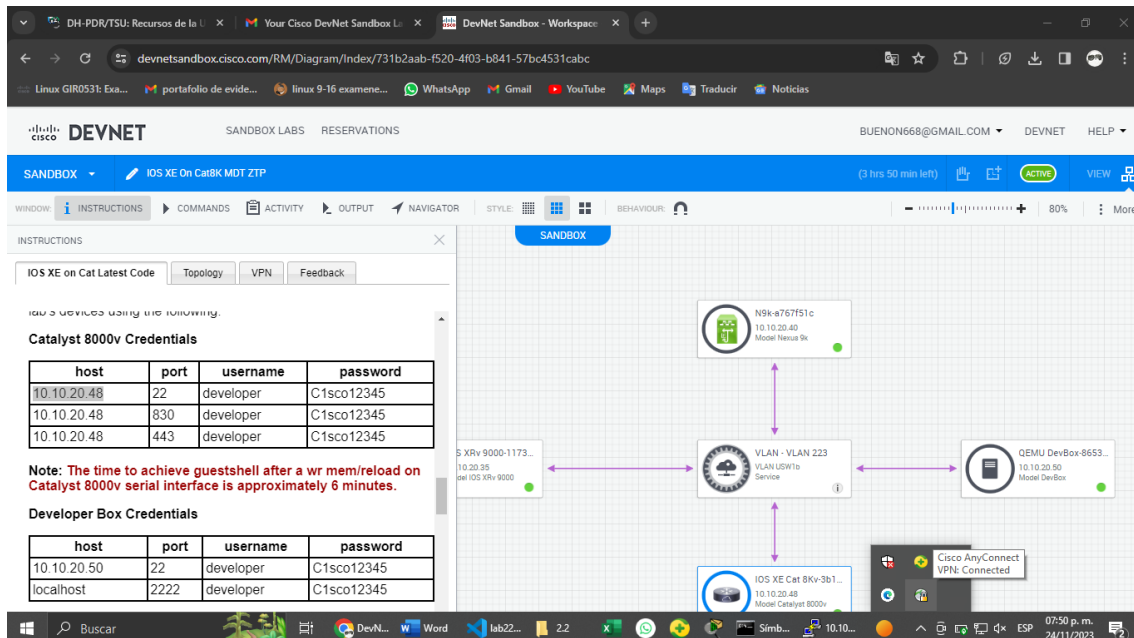

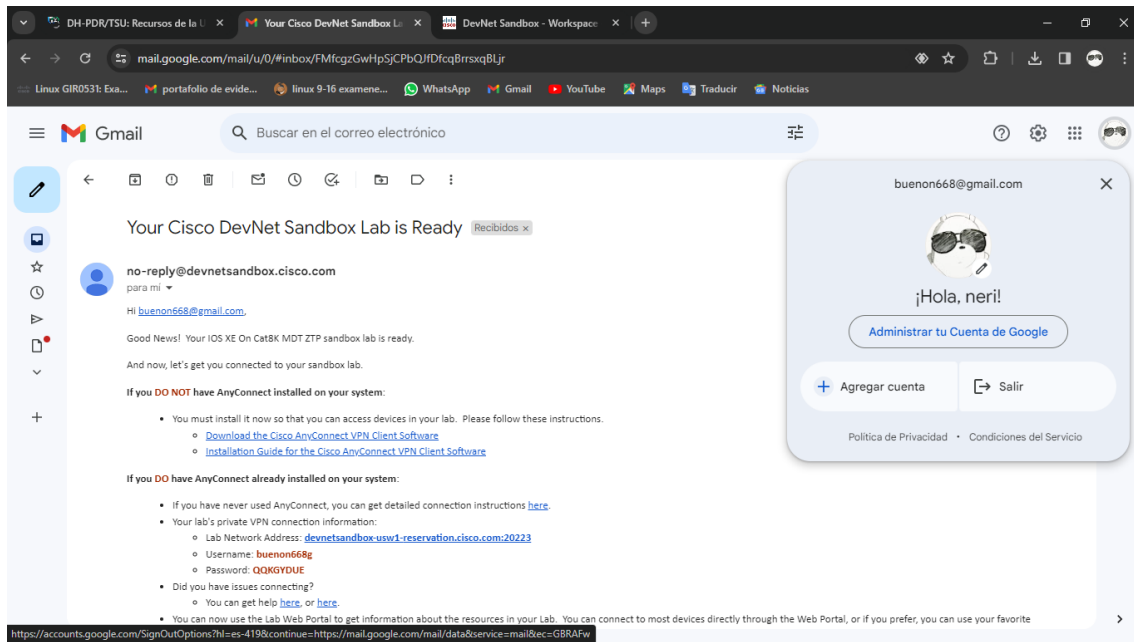

Please be patient – access to awesome Cisco technology is just minutes away!

--The DevNet Sandbox Team

PS. -- If you do not have the Cisco AnyConnect VPN Client software installed on your system you should do that now. It is required to access devices in your Lab.

- [Download the Cisco AnyConnect VPN Client Software](#)
- [Installation Guide for the Cisco AnyConnect VPN Client Software](#)
